

# Affiliate Marketer Toolkit on **Steroids**

Best Digital Marketing Tools  
To Boost Your Sales

# What is Affiliate Marketing?

Affiliate marketing is the process of earning money (commissions) every time you promote a company's products or services and drive a sale. You only get paid every time you drive a sale, just like a commission-only sales representative.

Now before I dive into affiliate marketing, let me tell you why you should care.

Affiliate marketing is a global industry worth well over \$12 billion. Not only AM is growing fast, but it is already a massive global industry. In 2018 it was worth over \$12 billion, with the US and the EU leading the way.

These tools can help your business performance in the long run, whether you are an affiliate marketer, or simply have an online business

# W-seotools- All in One Tool- Free Digital Marketing & Online Business Tools

At w-ecom we have made the commitment to help people use premium free online w-seotools to be able to boost their online business, we have designed this all in one tool mainly because not everybody on the internet can afford premium paid tools, especially in some areas of the globe where even \$30/m subscription can make a significant difference on the budget of a new entrepreneur/startup

Have a look to some of our tools:

## What is Your Favorite Tool?

Tools are becoming every day more popular, why? Well, because every affiliate marketer or online business owner needs some software in order to perform the daily tasks, the begin with, we have bluehost, an hosting company that have been in the game long time, it is a great choice if you're planning to build your website, then to promote your services/products you will need an email marketing tool, Constant Contact helps you build and automate your email marketing campaigns

Every person who works online use or know Canva, now I agree that is one of the best tool for visual content, **(however some features are paid)** but as we said we have made the commitment to provide you with the best and free tools available on the market, so for visual content we use freepik and then to modify those content we use pixlr it is similar to photoshop but first is free and then is much easier touse

## Are you enjoying the Toolkit?
